Createx Airbrush Colors

Createx Airbrush Colors are most trusted brand of airbrush paints worldwide. Made with lightfast pigments and a supple acrylic resin perfect for fabric and textiles. Createx Airbrush Colors are designed for permanent results with a soft-hand feel on fabrics. Colors cure with the assistance of heat after drying. For maximum permanence, a top-coat should be applied over the paint after curing.(5601 Transparent Base is recommended top binder for fabrics)

Transparent Colors
Cover semi-opaque sprayed direct from the bottle. To increase transparency and for use with smaller tip-sizes and lower psi settings. thin with 4011 Reducer. To extend color mix with 5601 transparent base

Opaque Colors
Made for coverage. Colors cover opaque in 2 – 3 coats. Mix with 4030 Balancing Clear for improved adhesion & durability onto plastics and other hard surfaces

Fluorescent Colors
are NOT lightfast. Best applied over a color-keyed base like Auto Borne Sealer

Pearl & Iridescent Colors .
Vivid colors with a shimmering effect especially in direct light.Cover semi-opaque. Best applied over white, grey or black base.

Ask for Createx Technical Data Sheets for detailed "How to" use info

Important: Please specify which size you want by placing an "02", "04", "16", "32" or "128" at the end of the order number. For example, AB 521204 would be a 4 oz. bottle of Opaque White.

Wicked Colors

Wicked Colors

Wicked Colors now includes the colors from the AutoAir Color line

Wicked Colors

For detailed info ("How to use") Ask for Wicked Technical Data Sheets

Wicked Colors are multi-surface airbrush paints suitable for applications on hard /non-porous surfaces (automotive, plastics, wood tc.) and soft / porous surfaces (textiles, drywall, canvass etc)
They cover well out-of-the-bottle and their spray performance, transparency and adhesive properties can be enhanced with a variety of additives offered (4011 Reducer, 4013 Reducer,4030 Balancing Clear, 4050 UVLS Gloss Clear
They are universally compatible with all types of primers, paints and clears.

For "how to" mix additives with colors, ask for Technical Data Sheets

Wicked Standard Colors
Standard graphic colors that spray semi-opaque out-of-the-bottle Dry to a semi-gloss finish use 4011 Reducer for increased transparency and improved flow.

Wicked Detail Colors
Compared to Standard Wicked Colors, Wicked Detail Colors are more transparent colors out of the bottle and less viscous. They dry to a matte finish and perfect for detailed graphic illustrations

Wicked Opaque Colors
Solid colors with excellent coverage and for use as base color.

Metallic
Metallic mica colors, aluminum flake and pigmented mica that cover semi-opaque..
Made with lightfast, automotive-grade pigments and exterior-grade acrylic resin.

Wicked Pearlized Colors
Mother of Pearl - lightfast pigments
.

Wicked Fluorescent Colors
The Fluorescent Colors are NOT lightfast. For best long-term color, apply fluorescent over a color-keyed base such as AutoBorne Sealers

Aluminum Bases
Actual aluminum with unique properties separate from other Wicked Colors. They're highly reflective, making them an ideal base for candy colors. They also work excellent as a stand alone silver finish; incredibly brilliant, show quality finish.

4104 Quicksilver and Gold Chrome
It is 6061-T6 Aluminum, a highly reflective, aircraft-grade aluminum.
Do not reduce. Spray directly from the bottle around 20 psi inlet.
Silver and Gold. Each color has incredible adhesion, capable of being applied direct to many substrates without the need for an adhesion promoter
Apply directly to glossy, non-sanded surfaces such as powder-coat, urethane finishes, plastics, and any substrate.
Apply over W018 Gloss Black or W017 Gloss White non-sanded surface, in very, very light coats
Apply QuickSilver over W018 Gloss Black for a Chrome like finish Applly Gold Chorme over W017 Gloss White base for a vivid, billet gold.. Apply Gold Chrom over W018 Gloss Black base for a deep, orange-shade gold.

Hi-Lite Interference
Accent pearl-flakes for subtle pearl effects in direct light. Hi-Lites are best applied in sparing amounts as a light pearl-coat applied over a base or mid-coat. Hi – Lites effects look similar to the pearlescent effect of fish scale (they're perfect for custom fish lures).

Hot Rod Sparkle
Large Pearl flakes in a transparent base. Apply as a pearl mid-coat over a base color or directly mix with other Wicked Colors to create unique custom color creations.

Cosmic Sparkle
Pearl flakes in a transparent base. Apply as a pearl mid-coat over a base color or directly mix with other Wicked Colors to create unique custom color creations. Cosmic Sparkle are smaller pearl-flakes which are the same found in many O.E.M. automotive colors.

Flair Color-Shift
Best applied over 6002 AutoBorne Sealer Black or a dark base. Soft flowing transition from one color into another. Example: Flair Tint Violet travels from lilac to silver to blue then into green.

Wicked W210 UV Glow Base & W212 Glow-in-thr Dark
W210 is a transparent UV effect solution for applying over colors or mixing colors for enhanced effect under UV light. Best used over, vivid colors such as Wicked Fluorescent Colors. W210 only produces effect under UV / black-light. For colors that glow in the dark after being "charged" under direct light, use W212 Wicked Glow in the Dark.

For detailed info ("How to use") Ask for Wicked Technical Data Sheets

Wicked Sets

Wicked Primary Set - W101-00
(6) 2 oz bottles - Black - Yellow - Red - Blue - Opaque White and Reducer

Candy2o Colors

True Candy Performance

100% transparent, water-based color made with aniline dyes.

4050 Gloss Clear is the best medium to mix with Candy2o Colors.and then reduce with 4011 Reducer as needed Candy2o colors will bleed into top-coated colors & clears. 4040 Bleed checker will prevent this..

Reducers, Mediums & Additives

for all Createx Products except where noted

Createx Colors Mediums

for Createx Colors Only

Matte Top Coat

On most surfaces it provides a water proof crystal clear matte finish with UV protectants which remains flexible soft and will not crack or discolor. When sprayed lightly, it will remain somewhat supple to the touch when used on fabrics. However, Transparent Base is the recommended "Top Binder" to spray over your completed fabric design.

Order#	Size	Retail	Sale
AB 5603 02	2 oz	~~3.75~~	2.89
AB 5603 04	4 oz	~~6.25~~	4.85
AB 5603 08	8 oz	~~10.31~~	7.79
AB 5603 16	16 oz	~~17.18~~	12.89
AB 5803 32	32 oz	~~32.47~~	24.65

Gloss Top Coat

Same as above on most surfaces, except not recommended for use on fabrics (does not remain as supple to the touch) and it will dry to a gloss finish.

Order#	Size	Retail	Sale
AB 5604 02	2 oz	~~3.75~~	2.89

Reducers

for all Createx Products except where noted

4011 Reducer

The go-to, recommended thinner for all Createx paints and clears.
4011 is a water-based thinner used to lower viscosity and promotes faster drying times and complete curing.. 4011 is generally added 5% - 10% per volume to paint. 4011 is less aggressive and safer to over-reduce paint with without seeding paint. 4011 assists drying times by flashing water from the paint. 4011 also helps reduce tip-dry better than diluting with water. Intended for use with all Createx Colors paints. Water-based paint material containing Propylene Glycol Monomethyl Ether Acetate

Order#	Size	Retail	Sale
AB 4011 02	2 oz	~~4.68~~	3.65
AB 4011 04	4 oz	~~7.00~~	5.50
AB 4011 08	8 oz	~~14.53~~	11.30
AB 4011 16	16 oz	~~18.84~~	14.70
AB 4011 32	32 oz	~~32.40~~	25.90

4012 Reducer

Replaced with 4011 Reducer.

4013 Reducer

4013 Reducer is a new thinner which is complaint with jurisdictions including South Coast AQMD Rule 1401. 4013 Reducer can be used as substitute for 4012. Assists drying times by flashing water from the paint. Reduces tip-dry, and decreases paint viscoity *"thins it" for improved flow and atomization, especially when airbrushing.
Generally added 5 – 10% per volume 4013 Reducer contains isopropyl alcohol and is classified as a flammable substance.

Order#	Size	Retail	Sale
AB 4013 02	2 oz	~~4.59~~	3.59
AB 4013 04	4 oz	~~7.07~~	5.50
AB 4013 08	8 oz	~~14.67~~	11.45
AB 4013 16	16 oz	~~19.02~~	14.80
AB 4013 32	32 oz	~~32.73~~	26.19

4020 Reducer

4020 assists drying and curing in humid conditions.
4020 is a specialty additive, not to replace 4011 the standard dilutant for all Createx Colors paint.
4020 works best by mixing with 4011 to create a cocktailed dilutant. Diluting Createx paints with 4020 alone is not recommended as paint may prematurely cure, seed in the cup and create cured paint particle contaminants. Contains Acetone and Glycol Ethers. Use only in controlled spray environments with adequate ventilation and a NIOSH / MSHA approved respirator.

Order#	Size	Retail	Sale
AB 4020 02	2 oz	~~5.34~~	4.15

Reducers, Mediums & Additives

for all Createx Products except where noted

Additives

4030 Balancing Clear

** Not for Use with AutoAir AutoBorne Sealers **

Water-based, non-catalyze polyurethane clear used as a mix additive for Improved spray performance, flow, adhesion and leveling. Mix 4030 with any Createx Colors paint 10 - 25% per volume or more. 4030 works as an adhesion promoter when mixed with Createx Colors, perfect for direct application to plastics, vinyl and most any hard to paint surface.
Wicked Colors dry to a much more durable coating when mixed with 4030 Balancing Clear. 4030 Balancing Clear appears milky in solution and dries clear..

Order	Size	Retail	Sale
AB 4030 02	2 oz	~~6.57~~	5.10
AB 4030 04	4 oz	~~10.10~~	7.85
AB 4030 08	8 oz	~~19.07~~	14.85
AB 4030 16	16 oz	~~35.90~~	27.95
AB 4030 32	32 oz	~~70.69~~	56.50
AB 4030 12	Gallon	~~269.61~~	214.00

4040 Bleed Checker

** Primarily For Use with AutoAir Candy2o Colors **

4040 Bleed Checker is a hybridized, urethane-acrylic clear used as an inter-coat intended for application over candy2o to prevent the candy2o's dyes from bleeding into top-coated colors.
Apply 4040 Bleed Checker over candy2o as an inter-coat. After 4040 has thoroughly dried (30 – 60 minutes), other colors including subsequent candy2o colors may be applied direct without scuffing. 4040 will prevent the underlying candy2o's dye from leaching ("bleeding") into the top-coated colors.
Apply 4040 Bleed Checker unreduced, straight from the bottle when applying as an inter-coat over candy2o.

Order#	Size	Retail	Sale
AB 4040 02	2 oz	~~7.58~~	5.90
AB 4040 04	4 oz	~~11.22~~	8.75
AB 4040 08	8 oz	~~22.44~~	17.50

AB 4040 32	32 oz	~~82.47~~	65.50

4004 Transparent Base

** For Use with Wicked and Auto Air Colors Only **

4004 Transparent Base is the colorless resin base to Wicked Colors and Auto Air Colors. 4004 appears milky in solution yet dries clear. 4004 works as a low-build inter-coat, transparent extender for colors and as a non-reactive barrier to prevent bleeding when using candy2o. T-shirt painter may also wish to apply a light coat or two of 4004 onto the fabric prior to painting to lock down any fabric nap.

Order	Size	Retail	Sale
AB 4004 02	2 oz	~~4.39~~	3.40
AB 4004 04	4 oz	~~6.16~~	4.79
AB 4004 08	8 oz	~~10.99~~	8.55

AB 4004 12	Gallon	~~139.10~~	111.25

AutoBorne Transparent Sealer

The colorless resin base to Wicked Colors and Auto Air Colors, Recommended for use with all Createx paints. Automotive-grade, Createx's most durable Transparent Base. Excellent adhesion promoter. Apply direct to any plastic for adhesion prior to applying colors. Self-levels & dries quickest of all Transparent Bases. Excellent adhesion promoter. Apply direct to any plastic for adhesion prior to applying colors.

Order	Size	Retail	Sale
AB 6000 04	4 oz	~~8.42~~	6.55
AB 6000 08	8 oz	~~19.92~~	15.50
AB 6000 16	16 oz	~~26.53~~	19.90
AB 6000 32	32 oz	~~52.95~~	40.25
AB 6000 12	128 oz	~~195.87~~	148.85

Flexible Adhesion Promoter

5092 Adhesion Promoter is a water-based clear used to make Illustration and Bloodine Colors and other water-based paints stick to latex. Also works as an adhesion promoter for flexible plastics, leather, vinyl and more. Apply 2 medium coats direct to the surface, allow each coat to dry 10 – 15 minutes then apply paint. Avoid applying dry or overly wetter, adhesion is best applied as a medium coat.
May also be mixed with colors and applied direct to the latex. 5092 is added about 25% per vol. to colors, which are then thinned 5% - 10% with 4011 Reducer.

Order#	Size	Retail	Sale
AB 5092 01	oz	~~5.05~~	3.89
AB 5092 02	2 oz	~~7.29~~	5.69

Steve Gibson's Air, Oil, Lead Grisaille Grey - Master Set Modern Edition

The Steve Gibson - Air Oil & Lead Grisaille Grey Set is a modern approach to Airbrushing, using traditional "Old Masters" Techniques. This Master Set introduces you to a new twist on a methodology used by traditional Oil Painters. Using 9 Neutral Greys to underpaint, creating values for structure, you then build color using a mixture of proper CMYK hues for finished values and color.

Set Includes:
2 ea 4 oz 4011 Reducer, 4030 Mix Additive | Balancing Clear
1 each 2 oz 5001-02 Illustration Neutral Grey , 5002-02 Illustration Neutral Grey, 5003-02 Illustration Neutral Grey 3, 5004-02 Illustration Neutral Grey , 5005-02 Illustration Neutral Grey 5, 5006-02 Illustration Neutral Grey 6, 5007-02 Illustration Neutral Grey 7 , 5008-02 Illustration Neutral Grey 8, 5009-02 Illustration Neutral Grey 9, 5051-02 Illustration Black, 5068-02 Illustration Opaque White, 5078-02 Illustration Opaque Black, 5095-02 Illustration CMYK Cyan, 5096-02 Illustration CMYK Magenta, 5097-02 Illustration CMYK Yellow

Size	Retail	Sale
1 oz	~~6.02~~	4.69
2 oz	~~10.04~~	7.79
8 oz	~~21.04~~	15.95

Important:

Please specify which size you want by placing a "01", "02", "04", "08" at the end of the order number. Example: AB 505002 would be a 2 oz. bottle of AB 5050 Illustration White.

Illustration Color

Refined, water-based airbrush colors offer true fine-line, detailed performance while allowing for re-wettable effects and subtle erasing techniques. As the name implies, Illustration Colors are designed with the illustrator and fine artist in mind.

Tim Gore's Bloodline

Bloodline is part of Createx Illustration Colors, and is the latest artistic expressions for Tim Gore. This line of airbrush colors was specifically created by Tim Gore, with colors designed for the subtleties of painting everything from "hyper real" creatures, humanoids and monsters, latex masks, resin kits, and anything your imagination can come up with.

Illustration Mediums

Illustration Transparent Base

Illustration Transparent Base: is a colorless resin base of Createx Illustration Colors which serves a variety of functions. Transparent Base appears milky but dries to a clear matte finish: -- use as an inter-coat to lock down your color, -- use to increase transparency and help improve flow -- solvent-hybrid reducer that can be used to slow the drying time for better paint flow and less tip dry

5090 Illustration Transparent Base

5090-01	1 oz	~~2.24~~	1.75
5090-02	2 oz	~~3.93~~	3.05
5090-04	4 oz	~~5.39~~	4.20
5090-08	8 oz	~~10.66~~	8.10

Flexible Adhesion Promoter

A water-based primer for painting on latex masks so paint will not chip, crack or peel off. May be applied as a primer direct to latex as or mixed direct with Bloodline Colors and other Createx Colors paints.: -- Appears milky in solution; dries to a clear and tacky coating which paint will adhere to, flex and not crack or chip off. -- Scuffing is not required. Simply clean the latex then apply Flexible Adhesion Promoter.

Paasche VL and Millennium

VL – Siphon Feed

Double Action – Internal Mix

No other airbrush can offer more versatility. The VL can achieve spray patterns from 1/32" – 1 ¼" and is ideal for spraying all airbrush paints.

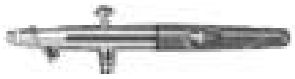

The minimum air requirements for the VL are .5 c.f.m. @ 20 p.s.i., However for better long term results when spraying airbrush paints on fabrics, we recommend at least 35 p.s.i

Order #	Description	Retail	$ale
99 VL#3L	VL#3 (airbrush only)	~~98.00~~	58.80
99 VL-6P	VL#3L 6- Pack (airbrushes only)	~~559.00~~	335.00

Raptor Airbrush

The Raptor Double Action

Internal Mix Gravity Feed Airbrush.
Low profile 1/10 oz fluid cup allows unobstructed view of the painting surface.. PTFE packing allows usage with both solvent & water based paints. Comes with .25mm nozzle/needle for extra fine detailed spraying. May also be converted to .38 mm & .66 mm nozzle/ needle combinations. The RG is a fine detail airbrush allowing the user to achieve hair line detail or patterns up to 1 inch. The handle includes a needle stop to assist with consistent paint release

Renegade Series, T&C Vega & Omni Series

BADGER AIR-BRUSH CO.

Rengade Series

The Renegades have patented nozzle technology, hardened/polished stainless steel needles, innovative spring gauge technology, a stop-set trigger system, and a dura-metal finish. Ultra-responsive triggering for absolute line control and stroke smoothness, perfect match-weighted balance for max comfort during intense detail airbrushing sessions, and a stop-set trigger for accurate spray pattern memory. .21mm drop-in micro tips, 6° beveled hardened/polished stainless needles, connected rocker lever/non-hinge trigger.

Renegade Velocity Airbrush

Dual Action, Gravity Feed, Internal Mix – Ultra Fine Tip & Needle
The Velocity is for extreme detail applications, including hair line custom work, micro-scale modeling (especially camouflage), tight and real taxidermy markings, truer than life illustration, and photographic appearing portraits.

Order #	description	* Delivered Price
99 R1V -QS	**In standard storage box**	**$131.00**
99 R1V -QSH	**In standard storage box+ 4 ft air hose**	**$142.00**

Renegade Rage Airbrush w/Fine Nozzle

+ color cup, jar with adaptor, and instructions:
Dual Action, Bottom Feed, Internal Mix – Fine Tip & Needle
The Rage is the airbrush of choice for the detail-oriented artist who requires a larger color reservoir. The Rage's patented fine nozzle provides more precise atomization enabling tighter lines and softer color/tone gradations than other siphon fed airbrushes.

Order #	description	* Delivered Price
99 R3R -QS	**+ accessories In standard storage box**	**$131.00**
99 R3R -QSH	**+ accessories In standard storage box + 4 ft air hose**	**$142.00**

Renegade Krome w/Fine & Medium Nozzle

w/attached color cup, and instructions in fancy box
Dual Action, Gravity Feed, Internal Mix – .2mm and .3mm Tips & Needle
The Krome 2 in 1 is a refined turbo charged version of the Renegade Velocity. The Krome features a soft-stroke trigger system that provides a lighter trigger tension, and an attached finger/thumb rest for increased comfort, and a micrometer trigger setting dial that allows the setting of spray patterns to 1/1000" accuracy. Comes with both .2mm and .3mm needle/nozzles.

Order #	description	~~list price~~	* Delivered Price
RK-1-QSD	**+ accessories In fancy storage box**		**$168.00**

Parts for airbrushes show on this page -- see page 20

Vega Series

The VEGA features a self-centering drop-in-tip nozzle design, with an NP sealed air cap for optimum air flow efficiency. Its long trigger stroke allows fine line to broad pattern spray adjustment. It also features a cut-away handle. .028 - .041 drop-in paint tips, 6.5 dgm stainless needles, connected rocker lever/non-hinge trigger.

Vega 2000 Airbrush w/Medium Nozzle

+ color cup, jar with adaptor, and instructions
Dual Action, Bottom Feed, Internal Mix – Medium Tip & Needle
The VEGA 2000 features a cut-away handle; a long trigger stroke for extreme spray pattern range and control, and it can spray virtually any properly reduced medium.

Custom Micron Series with Takumi Side Feed

The Custom Micron Series is for the elite professional who demands absolute Precision and accurate control of very detailed spraying. The unique feature of the Custom Micron Airbrush is found in the hand matched Head System. All of the parts in the head are assembled, tested and adjusted until the spray characteristics are as perfect as an airbrush can be. All three brushes in the series have pre-set adjustable handles and effective spray patterns from the finest "hairline" to ¾".

The CM-B 1/16-oz color cup and a 0.18-mm matched head system.

The CM-Takumi Side-Feed .024 oz cup and a 0.18-mm matched head system New : Redesigned, compact body style for improved control and Balance.. with gravity assisted Side feed cup and short needle

The CM-C ¼-oz color cup and a 0.23-mm matched head system.

The CM-C PLUS same as CM-C but with the Micro Air Control Valve (MAC), which enables infinite control of the air flow, solvent-proof teflon needle packing, and a cutaway preset handle.

For Original High Performance Series Airbrushes including the Anniversary HP-C Schematic and Parts/Price List available upon request

Eclipse Series

Eclipse HP-BG

Eclipse HP-CS

Eclipse HP-Takumi

The Eclipse series of general-purpose, high paint flow, high detail airbrushes provide the Ultimate in Versatility, Reliability and Performance.
The "drop-in" interchangeable hardened steel nozzles (cones) in the Eclipse are self-centering for perfect alignment and quick, easy assembly.
Difficult to spray mediums, like textile colors, thinned acrylics, automotive paints and ceramic glazes are handled with ease by the Eclipse. With an effective spray pattern from hairline to 2"

The Eclipse-Takumi Side-Feed .024 oz cup and a 0.35-mm head system
New : Redesigned Eclips SBS, compact body style for improved control and Balance.. with gravity assisted Side feed cup and short needle

BCS...(0.5 mm nozzle) siphon (bottom) feed
– uses bottles & color cups

Eclipse G Series

G3

ECL 9100

G5

ECL 9200

ECL 9000

ECL 9001

The Eclipse G6 with 0.6-mm stainless-steel nozzle

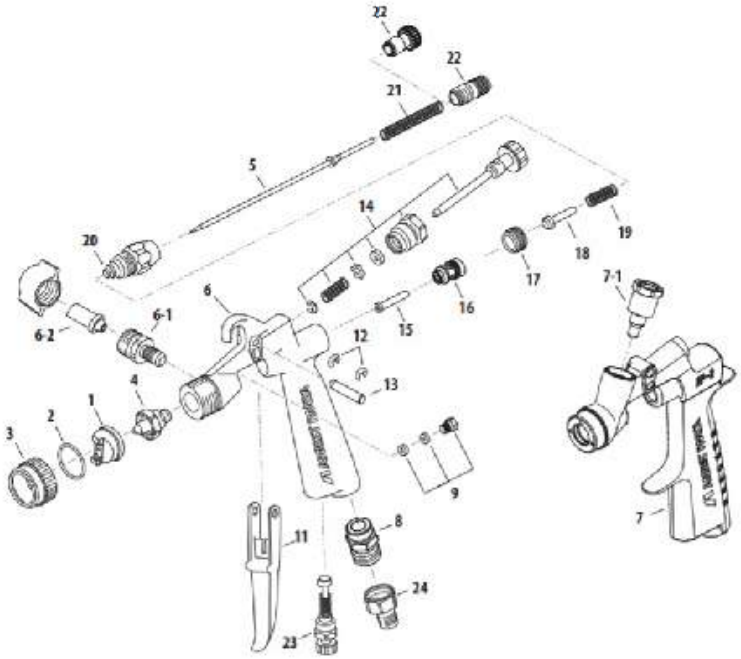

· Equipped with a long tapered needle that ensures a smooth transition between fine-to-wide background spray
· Utilizes a dual-purpose air cap and a fan adjustment valve that lets the airbrush spray a round or oval pattern
· · Uses a special fitting so airbrush bottles can be used instead of a gravity-feed cup, allowing for multiple color bottles to be interchanged quickly. – Optional gravity-feed cups available

Eclipse G3 & G5 · True center-post gravity-feed airbrushes with adjustable air inlet

NEW FOR ARTOOL

Texture FX3 Xtreme by Gerald Mendez

The Artool Texture FX3 Xtreme Airbrush Templates by Gerald Mendez are a compilation of natural and organic textures where movement and flow are the key elements. BONUS: The negative space surrounding each template can be utilized for creating additional textural effects with the extended Texture FX edges. Produced with exacting laser-cut precision, these templates use a special metallic polymer-coated material and are SOLVENT RESISTANT. With proper care, all Artool Templates will withstand years of repeated use. The more you use Texture FX Templates the better they get! Texture FX Tip: these stencils will never need cleaning!

Application Techniques and Tips

You can achieve incredibly soft textures by slightly lifting the templates from the working surface.
Move the template while airbrushing for added dimensional possibilities.
Overlap colors and shapes for greater textural depth.
Achieve different effects with the wide variety of size and shape holes.
Templates come in an 8.5" x 11" format (approximately). Simply cut tabs to release each shape.

Item No	Discription	List Price	Sale Price
